## who we are:

sundays is a non-toxic nail care brand focused on wellness. We are committed to taking care of your mind and body with our non-toxic products and mindful experiences in our NYC studios, including our signature guided meditation manicure.

Everything began with founder Amy Lin's belief: "you should never have to sacrifice your health for beauty". That's why we promise to provide healthy and high-quality products and services for both our customers and employees.

## why sundays self care products?

We all want a beautiful manicure and to feel pampered. Keep the connection with your co-workers and clients even if you're working from home.

No matter what the occasion is, we have a wide variety of non-toxic products to make everyone in your office feel appreciated. Not to say, a novel way to take care of your employees!

## how can sundays help your team?

Perhaps your team has been spending a ton of time typing away at their computer and they need a digital detox? Maybe their hands and nails need more attention?

Our non-toxic products and services could be a great way to share unique appreciation for your employees and help de-stress and improve productivity.
